Aspiring Software Engineer with solid foundations in full-stack development and AI/ML. Proficient in building scalable web applications using modern technologies like React.js, Node.js, MongoDB, and Python. Skilled in data structures, algorithms, and version control. Passionate about solving real-world problems and delivering impactful software solutions.

Education

Chandigarh University, Gharuan, Punjab

Master of Computer Application (AI/ML) CGPA : 7.93

2023 - 2025

Bachelor of Computer Application (BCA) CGPA : 7.86

2020 - 2023

Projects

Shayarana — MERN Stack Poetry Sharing Platform

- Developed a full-stack platform for users to read and contribute poetry
- Used React for frontend and Node.js/Express.js for backend APIs
- Implemented authentication and user profile management
- Reduced initial load time by 30% through code splitting and lazy loading.
- Deployed using Netlify, integrated CI/CD via GitHub.

Experience & Certifications

Full Stack Developer – Liv Dairy Pvt Ltd (Nov, 2024 – Apr, 2025)

- Responsible for building and maintaining web applications to digitize and streamline dairy operations.
- Utilized the MERN stack (MongoDB, Express.js, React.js, Node.js) to develop user-friendly interfaces, real-time dashboards, and backend APIs.
- Integrated database-driven functionalities, managed RESTful APIs, and ensured responsive, cross-platform design.

Certifications

- [Kotlin App Development](#) – Google
- [Data Visualization with Excel & Cognos](#) – IBM/Coursera
- [Data Processing with Python](#) – IBM/Coursera

Academic Leadership

Class Representative – MCA Program (Certificate)

- Coordinated between students and faculty to resolve academic issues
- Helped manage schedules and ensured smooth communication
